

EPIC

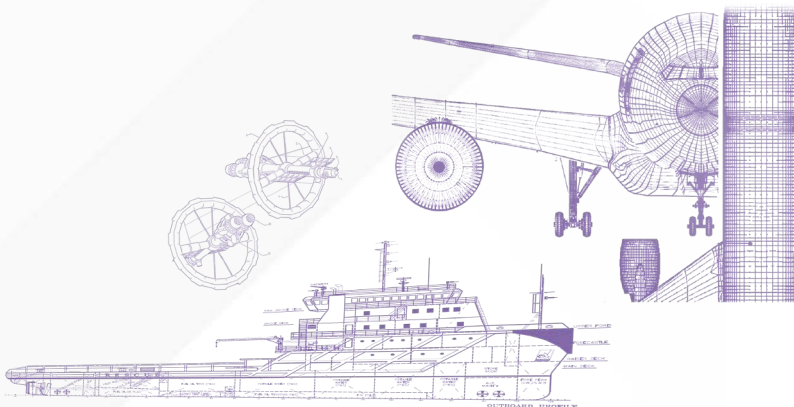

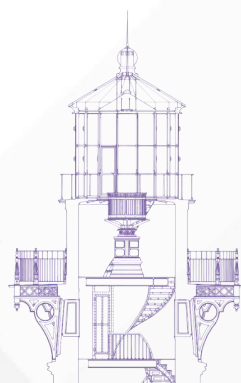

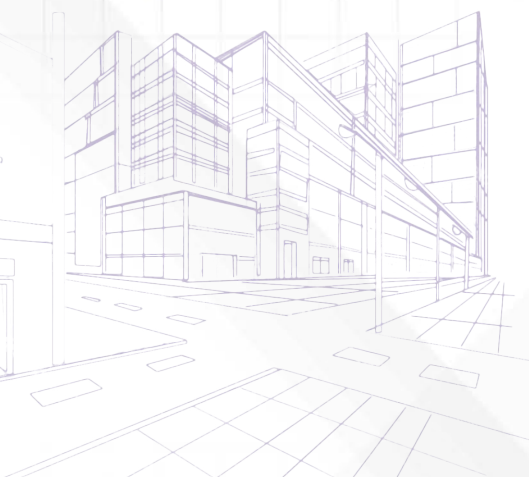

INTRODUCTION

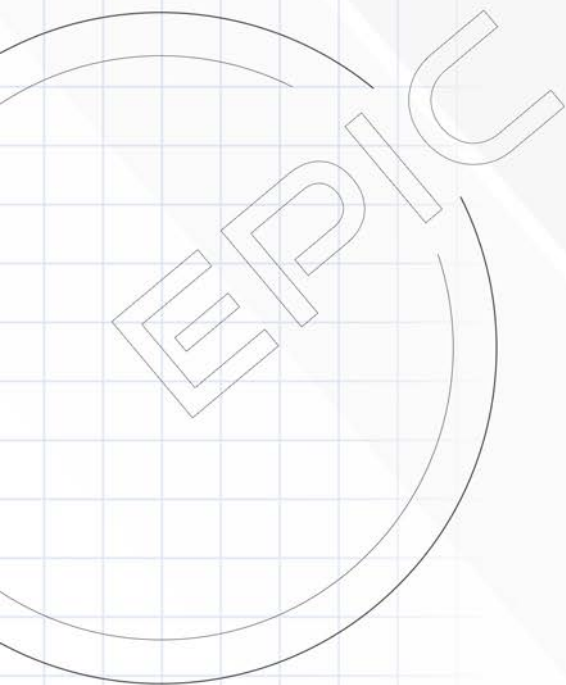

EPIC was established in the year 2017 under the partnership of two leading Groups “Hussein Al Haddad Group of Companies” and “Al Obaidani Group of Companies”. These two groups are owned and managed by two leading Omani businessmen in the country and it focuses on building diverse spectrum of products, services and solutions combined with creativity, passion, expertise and modern technology to its customers not only in the Sultanate of Oman but also to other GCC countries.

Each of this Group have set themselves as a dynamic organization that ventures itself into diversified portfolios to heighten its capabilities and contribute 100% towards the growth of in-country value for the Sultanate of Oman. There are several companies under each group and a brief about these companies and the brands they represent are given on the last pages of this profile and EPIC being one of the group companies offers a wide array of services and solutions in the sectors of:

- ◆ Marine
- ◆ Aviation
- ◆ Solid Waste and Water Sustainable Management
- ◆ Infrastructure Development
- ◆ Green Hydrogen

Each sector has its own partner companies that bring vast experience, connections and business intelligence. The success formula of EPIC is that it never fails to explore and develop new synergies and opportunities to keep it growing, updating itself with the changing global business and customer requirements. EPIC’s Team is extensively working in venturing into several other business portfolios in partnership with international companies across the Globe.

MARINE SECTOR

We offer brokerage services, leasing, sales and remarketing of ships and act as intermediaries and negotiators between buyers and sellers.

We as brokers can link two parts of the chain; ship-owner and charterer, and more generally, seller and buyer, in such a way that meets their demands.

We are specialist brokers / intermediaries / negotiators between ship-owners and charterers or between buyers and sellers of vessels. We bring at your disposal our vast experience, connections, expertise and business intelligence in the field of ship brokerage. Tailored services, end to end connection, new and existing rules updating is what we bring to our customers. We explore and develop new synergies and opportunities to keep ourselves up to date with changing global market requirements.

Our ability to provide clients with the most competitive and realistic prices and contracts makes us stand out from the rest. Our experts can plan, budget and advise on existing and upcoming projects avoiding any potential disputes and can mediate where necessary.

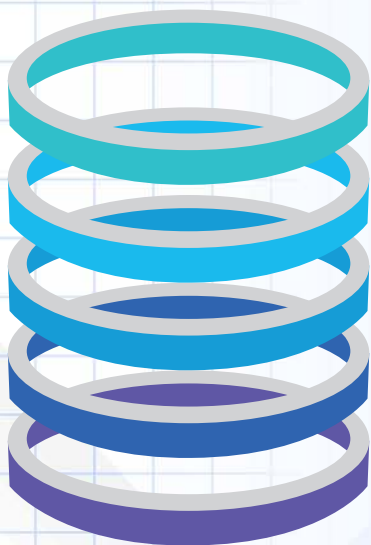

SERVICES THAT WE OFFER

- ◆ Detailed negotiation of the Charter – Party terms and conditions
- ◆ Commercial management of vessels
- ◆ Mediation of deals
- ◆ Package-deals' arrangement (Tailor-made solutions)
- ◆ Contact ship agents, notification / appointment of cargo-surveyors
- ◆ Advice and support on legal shipping matters, demurrage agreements and lawsuits
- ◆ Access to freight rates, market statistics, availability of cargo and tonnage
- ◆ General supplies for the vessels.

DIVISIONS THAT WE SERVE

Sale, Purchase & Demolition

Dry Cargo

Tankers

Containers

Other Specialized Sectors

Our database gives access to a varied range of tug owners - both international and local. We have connections in different parts of the world market which provide our clients the most up to date and relevant information.

AVIATION SECTOR

We offer brokerage services, leasing, sales and remarketing of aircrafts and act as intermediaries and negotiators between buyers and sellers while we also engage into supply of aircraft spare parts through our global suppliers.

SERVICES THAT WE OFFER

- ◆ Aircraft Sales & Remarketing
- ◆ Aircraft Leasing & Asset Management
- ◆ Supply Of Aircrafts Spare Parts

Aircraft Sales and Remarketing

- ◆ Development of marketing plan with controlled timeline
 - ◆ Proposal evaluation, term sheet and contract documentation
 - ◆ Technical project management
 - ◆ Co-ordination of project from transaction to closure

Aircraft Leasing & Asset Management

- ◆ Pre-purchase inspections
 - ◆ Preparation & delivery of aircraft to lease
- ◆ Lease monitoring and return

Supply Of Aircrafts Spare Parts

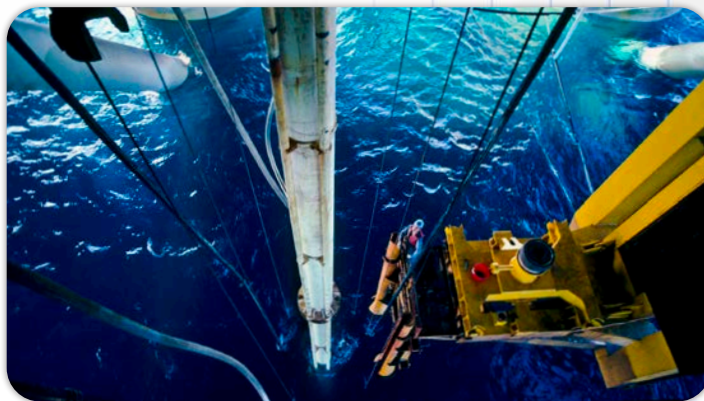

- ◆ Signing up long term contracts for spare parts supply
- ◆ Capture spare parts consumption and thereby formulate consignment options
- ◆ Develop customized services

SOLID WASTE & WATER SUSTAINABLE MANAGEMENT

EPIC's solid waste and water sustainable cluster is built up with two key companies originated from France and Tunisia and having its local offices registered in Oman. Combining as one team we have executed and currently executing several key projects.

We engage into providing engineering services and construction of oil & gas processing plants, solid waste and water treatment plants and industrial plants and various other solutions related to solid waste and water sustainable management.

Our key objective is to sustain our client satisfaction and to achieve this objective EPIC's solid waste and water sustainable cluster as a whole works towards deepening its known engineering strategies, by a combination of innovation and advanced technology. Our aim is to be a leading company that provides eco-friendly solid waste and water sustainable management solutions to its customer.

WE OPERATE IN THE
FIELD OF,

1. Oil & Gas

INFRASTRUCTURE DEVELOPMENT

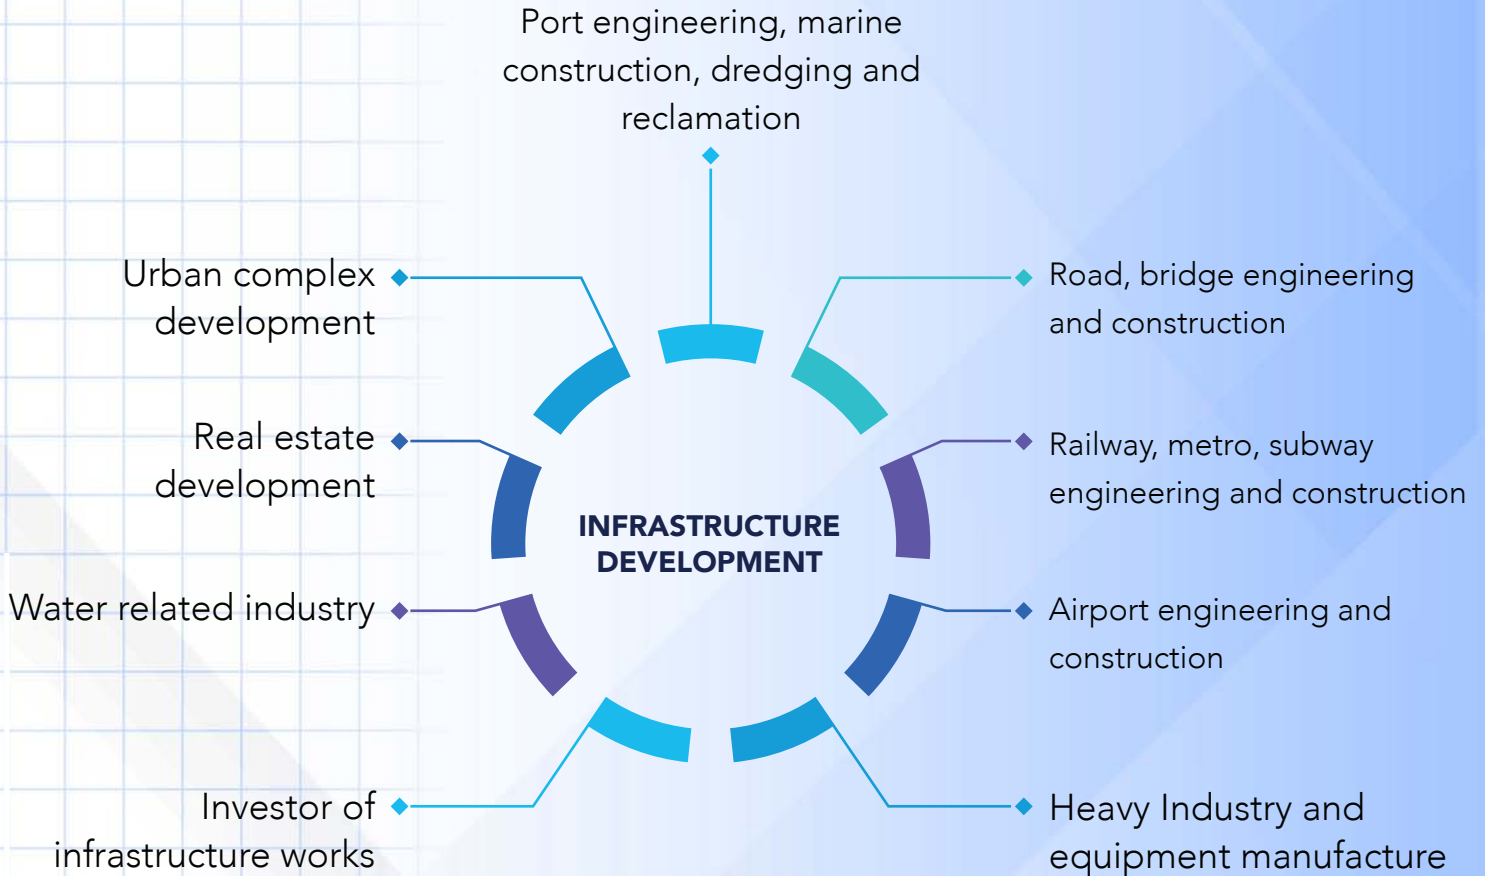

EPIC's infrastructure development arm is partnered with **China Communications Construction Company Ltd (CCCC)**.

is one of the leading global infrastructure development company which has a history of over 120 years. Our main aim is to meet the ever growing needs of infrastructure development in the Sultanate of Oman.

Combining as one team we engage into a multitude of infrastructure development projects.

GREEN HYDROGEN

Green Hydrogen provides a significant opportunity to reshape the global energy landscape towards a low carbon and sustainable future. The Sultanate of Oman is committed to net zero emissions by 2050 and aligned with the goals of the 2015 Paris agreement to reduce Greenhouse gas emissions and limit global temperature rise. Oman is naturally endowed with significant wind and world leading solar resources that it plans to develop in order to enable the generation of green hydrogen.

Oman intends to be at the forefront of the development of the Global green hydrogen supply chain and deeply believes in the potential of the eco system from a societal and business perspective which will underpin a transformation across the Oman's economy. The Hydrogen strategy will ensure continued energy independence and security of supply allowing Oman's domestic and the global economy to thrive.

EPIC along with its partner company **GWWT**, plays a focal role in this legacy project as a consortium with some of the leading companies in the world to reshape and build Oman's energy towards Green.
